

YOUNG INVESTIGATORS WORKSHOP

Research in Emergency and Acute Medicine

Charité meets Greece

FRIDAY, 16th September 2016

Fenster der Wissenschaft
Charité – Universitätsmedizin Berlin

Scientific Director:

PROF. DR. MED. MARTIN MÖCKEL, FESC, FAHA
Head of the Division of Emergency and Acute Medicine
Campus Virchow-Klinikum and Campus Charité Mitte
Scientific Head of Cardiovascular Process Research
Charité – Universitätsmedizin Berlin

Course Director:

DR. MED. JULIA SEARLE, MD, MPH
Division of Emergency and Acute Medicine, Nord-Campi
Teaching and research coordination
Charité - Universitätsmedizin Berlin

Emergency Medicine in Germany and Acute Medicine in Greece are relatively young disciplines, with Germany still waiting for the introduction of an Emergency Medicine specialist title. Both subjects face similar challenges, including increasing demands, increasing complexity and multi-morbidity. High quality research in these subjects is not only important to describe clinical needs and improve patient care and security, but also to raise awareness of these specialties and their challenges. The acute setting, complex processes and interactions and the unpredictable workload require specific and partly unusual study designs. In this workshop, we will look into selected publications on research in Emergency and Acute Medicine, evaluate the clinical needs and relevance and assess strengths and weaknesses of the respective study designs. Further, we will develop suitable study designs for interesting and relevant research questions.

PROGRAM

09:00 **Introduction**

09:05 **WORKSHOP I: Journal Club**

Small group work: Critical appraisal of selected publications from Emergency and Acute Medicine with poster presentation
Focus on clinical need, relevance, research question, study design, methods, strengths and weaknesses of the publication.

10:30 **WORKSHOP II: Future research in Emergency and Acute Medicine**

Mixed group work: *Research we would like to do in Emergency and Acute Medicine*

- Identify an unmet need
- Specify the research question
- Identify a suitable study design
- Identify collaboration partners
- Identify funding sources

Presentation of a Study Synopsis

12:00 **End of workshop**

GENERAL INFORMATION

Instructors:

JULIA SEARLE, MD, MPH
Charité - Universitätsmedizin Berlin
Division of Emergency and Acute Medicine, Nord-Campi

ANNA SLAGMAN, VD, MSc
Charité - Universitätsmedizin Berlin
Division of Emergency and Acute Medicine, Nord-Campi

Audience:

Doctoral and PhD students, young scientists, young doctors interested in research in Acute and Emergency Medicine.

Language:

English

Venue:

Charité – Universitätsmedizin Berlin
Campus Charité Mitte
CharitéCrossOver
Fenster der Wissenschaft
Virchowweg 6
10117 Berlin

Meeting time:

Friday, 16th September 2016 from 09:00 a.m. – 12:00 a.m.

CME Accreditation:

Approx. 4 CME-Credits/ Cat. C
